

# Think like an Archaeologist!

**Observations:** Record what you observe about each items texture, color, size, shape and anything else.

Item 1:

Item 2:

Item 3:

Item 4:

Item 5:

Item 6:

**Inferences:** Based on your observations, what can you infer about the people who threw this trash away? Where do you think these items came from? What do we know about the person who threw away this trash? What might they have been like?
